

Selling thans from a store

The whole path, card by card, from the first tap to the invoice — first the seller, then the admin who approves.

Who

Any active employee or admin picks the thans and sends the sale. A **different** admin approves it.

Where

 Sales & Marketing →  Orders →  **Sell Bundles / Than**

The rule

Nothing moves until an admin approves. The sales bill is always required. Customer, rate and payment are the **admin's** to set — the seller only says what physically left.

Worked example on every page: container Mar26 · store IDUMOTA · design 202/201 · seller Abdul · admin Krishna · buyer ABBA. The words on the cards are the bot's exact words; the numbers are examples.

1

Open the door and pick the container

Tap  **Sell Bundles / Than**. The bot asks which container (arrival batch) the goods came in; the number is how many thans it still has. One container → this card is skipped.

 **Bundle Sale — pick container**

Select container (arrival batch): 01:31

 Mar26 · 412 than

 Jun26 · 96 than

 Cancel

 Back to menu

2

Pick the store

Only asked when that container sits in more than one store. One store → skipped.

 **Bundle Sale — pick warehouse**

 Container: **Mar26**

Which location are you selling from? 01:31

 IDUMOTA

 Kano office

 Back to containers

 Cancel

3

Pick the design

Designs are listed largest stock first, with how many shades and yards are available here. Twelve show at a time.

 Back always goes one screen up.  Cancel drops everything — nothing has been written.

 **Bundle Sale — IDUMOTA**

 Container: **Mar26**

Pick a design to drill into: 01:31

 202/201 · 5 shades · 1,380 yd

 9037 · 3 shades · 640 yd

 77019 · 2 shades · 410 yd

 Back

 Cancel

4 Pick a shade

Each button is a shade with the thans still free to take — what is already in your cart is subtracted.  **Take ALL** puts every remaining than of every shade in the cart in one tap.

The bot never picks thans for you. Every than in a sale is ticked by a person (owner rule, TRF-15).

 202/201 @ IDUMOTA

Pick a shade to open its bales: 01:31

1 - White (24 thans)

2 - Dark Brown (18 thans)

3 - Navy Blue (12 thans)

4 - Royal Blue (11 thans)

5 - Taupe Grey (18 thans)

 Take ALL 5 shades (83 thans)

 Back to designs

 Cancel

5 Pick the bale

One row per bale. Tap the **bale number** to take the whole bale; tap  to open it and tick individual thans. The dot is the bale's age:  fresh ·  ageing ·  stale — sell the old ones first.

 202/201  1 - White @ IDUMOTA

Tap a **bale number** to take the whole bale, or  to pick thans inside it.
☐ none · ☒ some ·  whole bale. 01:31

14 Step 1 — who is buying

Buyers of this design come first, each with the rate they last paid.  **All customers** lists everyone; or type a name to search. A new buyer is added through  Add Contact first — never typed here.

 **Confirm sale — R-4F72**

Design(s): 202/201 · 2 item(s) · From: IDUMOTA

Step 1 — Who is buying 202/201? Tap below, or reply with a name to search.

Buyers of this design first, with the rate they last paid for it.

 A typed reply goes to the request you touched last.

01:31

 ABBA — 1,450/yd

 CJE — 1,400/yd

 Ketu madam

 Musa Bello

 All customers

15 Step 2 — the rate

The first chip is the rate this buyer last paid for this design, taken from their last approved sale. One tap books it. Or tap  **Type a custom rate** and reply with a number; for several designs reply with pairs, 44200:1500, 44201:1200.  **Change customer** goes back to Step 1.

 Outstanding is the buyer's balance before this sale — the credit exposure you are adding to.

 **Confirm sale — R-4F72**

Customer: **ABBA**
 Outstanding: 7,353,610
Design(s): 202/201
Unit: yard

Step 2 — Rate: tap below, or reply with rate per yard.

- Single design: e.g. 1500
- Multiple: e.g. 44200:1500, 44201:1200

 *A typed reply goes to the request you touched last.*

01:31

1,450/yd — last paid by ABBA

 Type a custom rate

 Change customer (ABBA)

No history? The card says so instead of silently dropping the chip. Type the rate.

 **Confirm sale — R-4F72**

Customer: **ABBA**
 Outstanding: 7,353,610
Design(s): 202/201
Unit: yard

Step 2 — Rate: tap below, or reply with rate per yard.

- Single design: e.g. 1500
- Multiple: e.g. 44200:1500, 44201:1200

No earlier sale of 202/201 to ABBA found.
 *A typed reply goes to the request you touched last.*

01:31

 Type a custom rate

 Change customer (ABBA)

16 Step 3 — payment mode

Cash, a registered bank, or  **Not yet paid** (credit). Banks come from the Settings sheet.

 **Confirm sale — R-4F72**

 ABBA

Step 3 — Payment mode: tap below, or reply with one of:

- Cash
- Paid to [Bank]
- Not yet paid

 *A typed reply goes to the request you touched last.*

01:31

 Cash

 Not yet paid

 ZENITH BANK

 GTBank

17 Step 4 — amount paid

 **Paid in full** is yards × rate, computed for you. Part payment:  **Type the amount**. Not yet paid skips this step.

 **Confirm sale — R-4F72**

 ABBA · Cash

Step 4 — Amount paid: tap below, or reply with the amount received, e.g. 50000

 *A typed reply goes to the request you touched last.*

01:31

 Paid in full — 181,250

 Type the amount

18 Step 5 — customer-copy multiplier

Internal only. The customer's invoice prints the rate × this number; the sheet, the ledger and every internal figure stay at the rate you entered. **No multiplier** prints the rate as typed. The factor never appears on the invoice, the caption or any card after this one.

 **Confirm sale — R-4F72**

 ABBA · Cash · 181,250

Step 5 — Customer-copy multiplier: tap below, or reply with the number the entered rate is multiplied by on the customer's invoice.

No multiplier = the invoice prints the rate exactly as entered.

 *A typed reply goes to the request you touched last.*

01:31

No multiplier

Settings: 1,250

Menu

INV-2026-0912 · ABBA · 22-Sep-2026.pdf

Invoice INV-2026-0912 · ABBA

01:31

The receipt from step 12 is edited in place: the buyer's name and phone number appear on it, so the goods can be dispatched.

Rejected instead? The seller's chat gets “ Your request R-4F72 has been rejected by admin.” Nothing was written. The request stays on record under Approvals → Decided, naming who rejected it.

If something goes wrong · the seller's side

Nothing here can move stock. The worst case is a request that has to be raised again.

The bot says	What it means	What you do
 Cart is empty Go back and pick a few thans, or use  Pack target yardage.	You tapped Continue with nothing ticked.	Tap  Pick another shade and tick the thans.
 1 item(s) became unavailable Dropped from cart: · Bale 5804 #2 — sold Review the cart and decide.	Someone sold that than while you were picking. The bot re-checks live stock before the confirm card.	Tap  Open cart, check what is left, continue.
 25-Sep-2026 is in the FUTURE — future sales are not allowed.	You tapped a date after today.	Tap today or the real day of the sale.
 2026-02-01 is more than 180 days back — ask an admin if this is a genuine old sale.	The calendar reaches 180 days back (a Settings cell). Older sales need an admin.	Tell the admin; do not force it.
 Please send a photo or PDF of the sales bill.	You sent text, a sticker or a voice note.	Send the bill as a photo or a PDF file.
 Already submitted. Request: ...  Waiting for admin approval.	You tapped submit twice (or the app retried). One request exists, not two.	Nothing. Wait for the admin.
 Bale 5611 has no available than in IDUMOTA.	That bale is sold out here (or sits in another store).	Pick another bale, or check the store.
 Cancelled.	You tapped  Cancel. Nothing was written anywhere.	Start again from  Sell Bundles / Than.

If something goes wrong · the admin's side

The bot says	What it means	What you do
 You cannot approve your own request — a second admin must review it.	You raised this sale yourself. Another admin must approve it.	Ask the other admin to open  Approvals →  Sales.
Request ... is already approved — no change made.	The other admin got there first (or you tapped an old card).	Nothing to do.
 Request R-4F72 approved, but applied only 1 of 2 Bales. Ledger updated for what was applied.	One bale in the request was sold or moved before you approved. The rest went through.	Check with the seller; the skipped item is listed under the card.
 Mark as done (no re-run)	Everything in this request is already sold (the stock check found nothing left to apply). The button replaces  Approve.	Tap it to close the request without selling anything twice.
 Abba Textiles is filed under ABBA — the invoice and ledger will read ABBA.	The name you typed is an alias. The record uses the official name.	Nothing. Continue to Step 2.
Please enter a positive number for the multiplier, e.g. 1250 — or tap No multiplier.	Step 5 was answered with a word or a zero.	Type a number, or tap No multiplier.

Several requests at once? Each sale has its own wizard. Buttons always act on their own card; a *typed* reply goes to the request you touched last — the card says so in its last line.
