Payments, card by card

Abdul — this shows only what **you** tap and what arrives on **your** phone. Krishna has the same pages with every other phone. Go through it together, card by card.

What you will do

Register your bank account once. Ask for a payment (amount, what it is for, the bill). Wait while two admins approve. Receive the Paid message. Record a payment a customer made.

In the live test Krishna may ask you to type test figures instead of the example here (₦1,000 with the reason **TEST do not pay**; a salary of ₦1,100 and an advance of ₦1,500 for next month). The cards are the same; only the figures change.

Who else is involved

Krishna — admin — approves

Musa — admin — approves, and chooses the company account that pays you

Finance — the person who makes the bank transfer

In this copy

1. Register your bank account (once)
2. Ask for a payment
3. While you wait
4. Approved
5. Paid — or declined
6. My requests
7. Two things the bot will refuse
8. Recording a customer's payment
9. Your checklist — and if a card looks different

7 The **step number**. Quote it when something differs.

Abdul **Who acts** — the colour never changes.

Do: what to tap like this or type `like this`.

🔏 Approval 1 of 2 recorded. A **pop-up**: the small grey note after a tap. A white box with OK must be closed.

NEW card — New with this release.

☐ **matches** Tick when the phone shows exactly this.

The whole journey at a glance — your column is highlighted

Part	You (Abdul) Lagos office manager · employee	Krishna owner · admin 1 · gives the first approval	Musa admin 2 · gives the last approval	Finance the finance phone · the person who pays	Now waiting on
A	**Registers his bank account (once)**	receives approval card	receives approval card		⏳ Krishna and Musa
A	receives “Approval 1 of 2”	**Approves the account — 1 of 2**	receives “needs a SECOND”		⏳ Musa
A	receives “Approved · 2 of 2”		**Approves the account — 2 of 2**		⏳ Abdul (the account is ready)
B	**Asks for ₦25,000 · Transport to Idumota · bill**	receives approval card + bill	receives approval card + bill		⏳ Krishna and Musa
C	receives “Approval 1 of 2”	**First approval**	receives “needs a SECOND”		⏳ Musa
D	receives “Approved” + Paying from ZENITH NEW		**Last approval — taps the account to pay FROM**	receives payment card: From and To NEW	⏳ Finance
E	receives “Paid” · From and To NEW	receives “Paid” · From and To NEW	receives “Paid” · From and To NEW	**Pays at the bank, taps ✓ Mark Done**	⏳ Finance (the proof)
E	receives proof picture	receives proof picture	receives proof picture	**Sends the transfer screenshot**	⏳ nobody — finished

Read down: each row is one moment. A filled box is the person who acts; an outlined box is what lands on that person's phone at that moment. The right-hand column says who everyone is waiting for next.

1 Register your bank account (once)

Do this once. Money can only be paid into an account that two admins have approved.

1

You

Do: Type `menu`, tap 💰 Finance, then 💳 Payments.

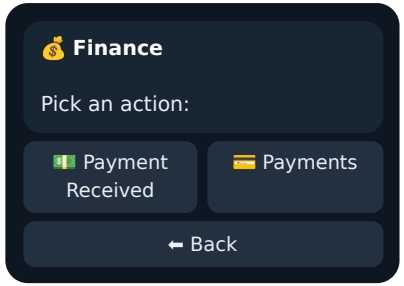

The same message changes each time you tap.

☐ **matches**

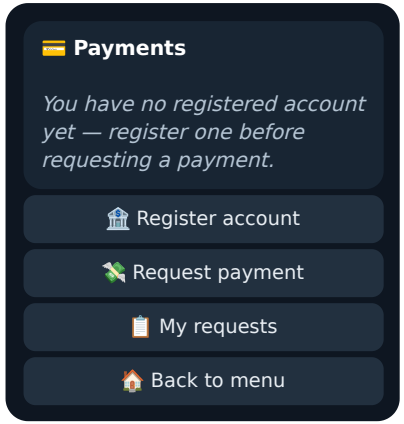

On your phone

On your phone · the same message changes to

On your phone · the same message changes to

▼ then

2

You

Do: Tap 🏦 Register account. Type your 10-digit account number. Type it once more.

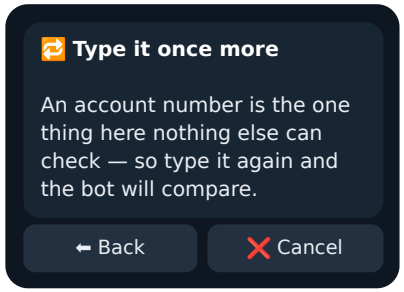

The bot compares the two. If they differ (third card), type it again. Then tap YOUR bank (GTBank, Zenith …). The two buttons ending "— BLACK PANTHER" are the company's own accounts — never pick them here.

☐ **matches**

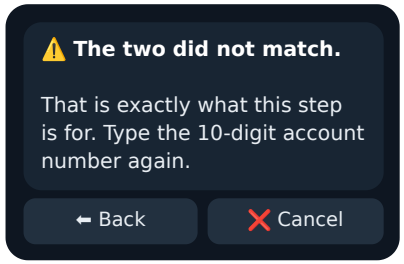

On your phone · the same message changes to

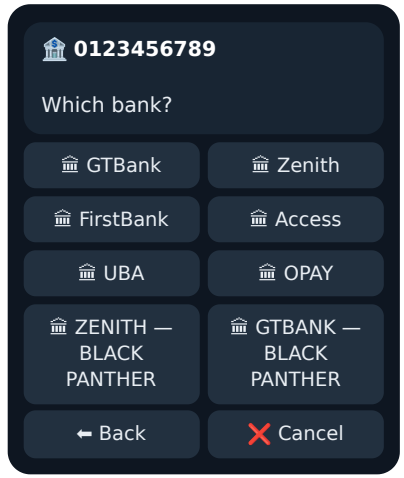

On your phone · the same message changes to

On your phone · the same message changes to

▼ then

3

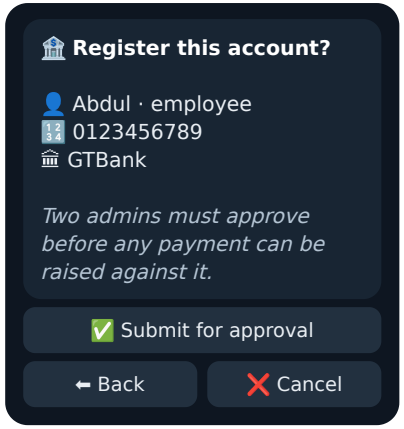

You

Do: Tap your bank (🏛 GTBank), check, tap ✅ Submit for approval .

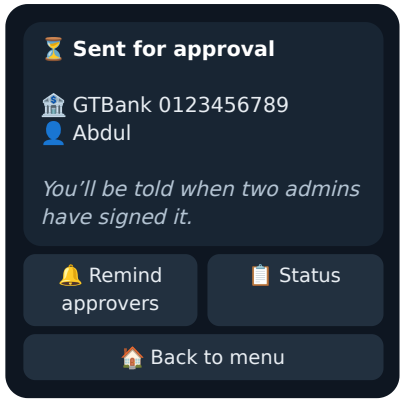

Now two admins check it.

☐ **matches**

On your phone · the same message changes to

On your phone

▼ then

4

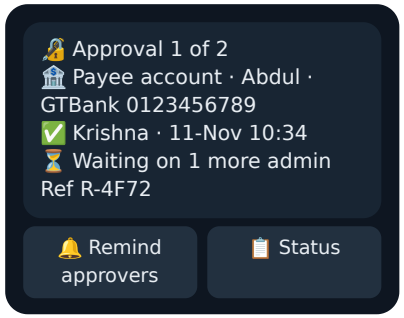

You wait

Do: Wait. You receive one card at each approval.

After the second approval, 💳 Payments says you have 1 registered account.

☐ **matches**

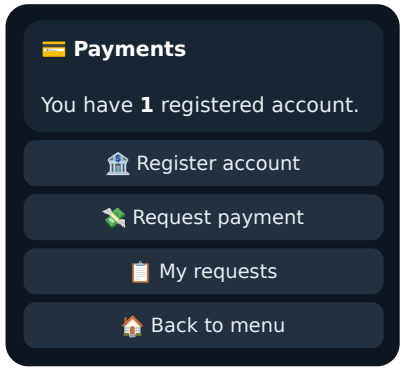

On your phone

On your phone

On your phone · the same message changes to

2 Ask for a payment

Example: ₦25,000 for “Transport to Idumota”, with a photo of the bill.

5

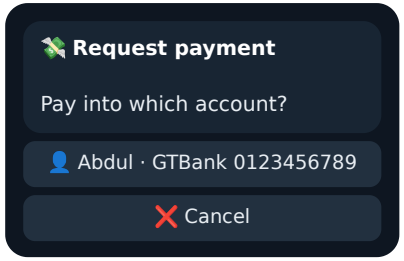

You

Do: 💳 Payments → 💸 Request payment → tap your account.

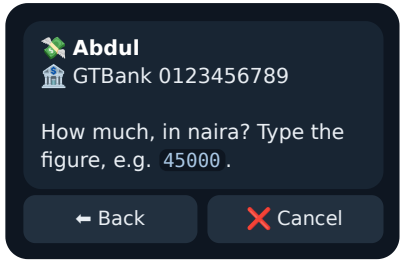

You can only pick your own registered account.

☐ **matches**

On your phone · the same message changes to

On your phone · the same message changes to

▼ then

6

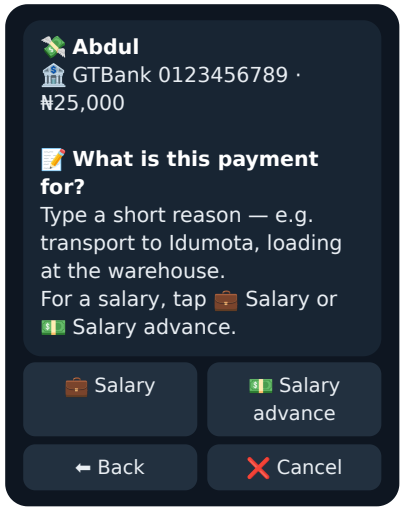

You

Do: Type the amount in figures: `25000`. Type what it is for: `Transport to Idumota`.

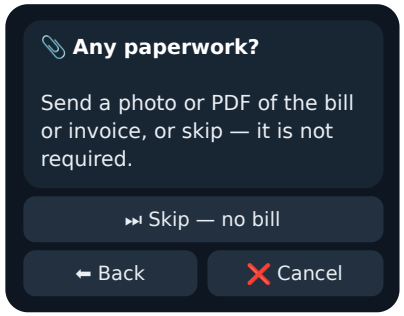

Figures only — not words. A reason of 3 to 120 letters. For a salary use the two Salary buttons (part 7).

☐ **matches**

On your phone · the same message changes to

On your phone · the same message changes to

▼ then

7

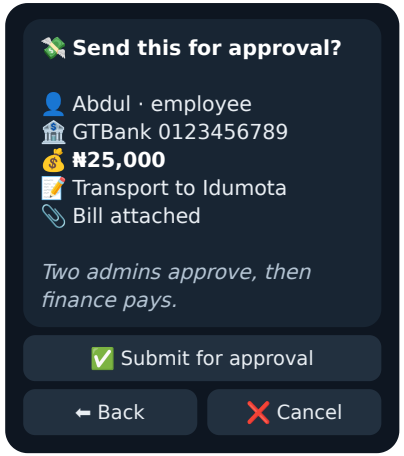

You

Do: Send the photo of the bill (or tap ⏭ Skip — no bill), check, tap ✅ Submit for approval.

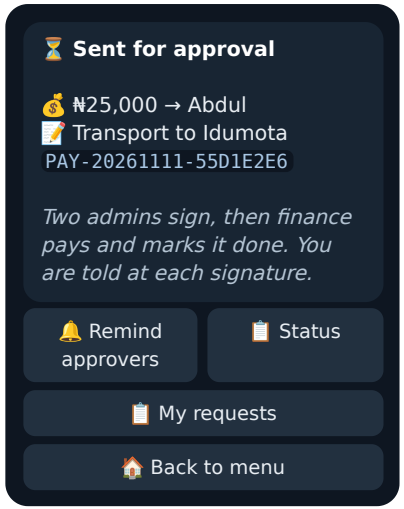

Your receipt has the payment number (PAY-…). Keep it. The approval cards that follow use a short number, R-…: both mean this same request — quote either.

☐ **matches**

On your phone · the same message changes to

On your phone

3 While you wait

Two admins must approve. You are told at each approval.

8

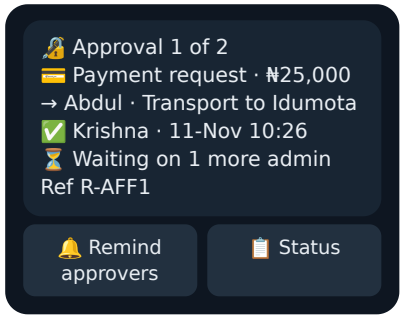

You wait

Do: Wait for the first approval.

Tap 📋 Status any time to see who has signed and how long it has waited (second card — only if you tap it).

☐ **matches**

On your phone

On your phone

▼ then

9

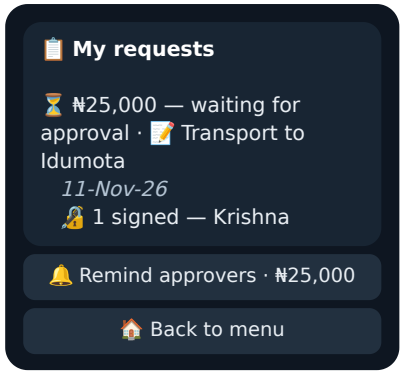

You

Do: If it waits too long, tap 🔔 Remind approvers.

The reminder goes only to the admin who has not signed yet. **Once a day**: a second tap the same day is refused (last pop-up — close it with OK). Only if you need it.

☐ **matches**

On your phone

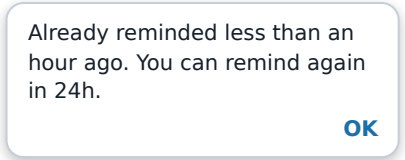

On your phone

POP-UP AFTER THE TAP

On your phone · pop-up only

4 Approved — the card now names the account it will be paid from

New in this release: the last admin chooses the company account the money comes FROM.

10

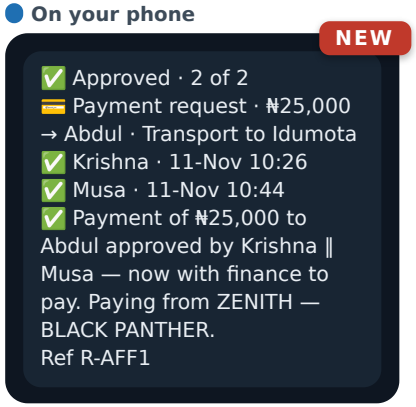

You wait

Do: Nothing to tap — wait for the second approval.

Approved is not yet paid: the finance person now makes the bank transfer.

☐ **matches**

On your phone

5 Paid — or declined

The finance person pays at the bank, then the bot tells you.

11

You wait

Do: Nothing to tap — wait for the money.

“From” is the company account; “To” is your account. Check your bank. When the finance person sends the transfer screenshot, you receive it too (second card).

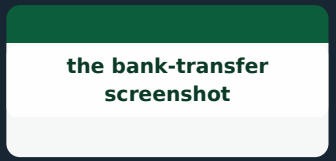

☐ matches

8 Recording a payment a customer made (Payment Received)

Example: customer ABBA paid 50,000 into Zenith.

17

You

Do: 💰 Finance → 💵 Payment Received. Type part of the name (`abb`), tap 👤 ABBA.

☐ **matches**

🔵 **On your phone · the same message changes to**

💵 **Payment received**

Who paid?
Tap the customer, or type part of the name.

- 👤 ABBA
- 👤 Bello Textiles
- 👤 Chika Fabrics
- 👤 Danjuma Stores
- 👤 Emeka & Sons
- 👤 Fatima Wholesale
- 👤 Garba Kano
- 👤 Hauwa Fashion

1/2 | Next ▶

❌ Cancel

🔵 **On your phone · the same message changes to**

💵 **Payment received**

Who paid?
Tap the customer, or type part of the name.
🔎 *abb* · 1 match

- 👤 ABBA
- ❌ Cancel

🔵 **On your phone · the same message changes to**

💵 **Payment received**

Customer: **ABBA**

How much did they pay?
Type the amount, for example `50000`.

⬅ Back | ❌ Cancel

▼ then

18

You

Do: Type `50000`, tap how it was paid (🏦 Zenith), tap ✅ Submit for approval.

Tap the bank the money went into — in this example 🏦 Zenith. The buttons ending "— BLACK PANTHER" are the company's own accounts; which one to tap for money paid into the company's Zenith account is Krishna's call — ask him before your first real entry. The customer's balance moves only after the admins approve.

☐ **matches**

If a card looks different from this guide: take a screenshot and send it to Krishna, with the step number.

Send the whole card, with its buttons. A different word, a missing line, a different button, or a message arriving in a different order all count. Do not tap anything else on that card until Krishna answers.
